MEMORANDUM FOR: SA/AD/CR

SUBJECT : USIB Agencies Using DCID 1/7 Stamps

1. We have noted that all CIA components are using the stamps authorized by subject DCID on both information reports and publications.

2. Generally speaking, the Defense Components and State use "NO FOREIGN DISSEM" on raw reports and have in rare instances (Army & Air Force) used "WARNING NOTICE - Sensitive Sources and Methods Involved". Defense and State are beginning to use "NO FOREIGN DISSEM" on their publications instead of "NOFORN" but we still receive publications with the old stamp. For instance: the January ONI Bulletin is stamped "NOFORN" and a recent JCS study is "NOFORN". We do not recall seeing other stamps authorized by DCID 1/7 on Defense and State publications.
